Water Conservation Measures for 2020

STAGE ONE: (now in effect and until further notice)

- A) Irrigation season is April 15th to October 15th. No watering outside of these dates
- B) All properties to the south of Lakehill Road water only on **Tuesday and Thursday and Saturday**
- C) All properties to the north of Lakehill Road water only on **Wednesday and Friday and Sunday**
- D) Water only from **6:00 - 10:00 AM** and from **7:00 - 11:00 PM** on your assigned watering days
- E) Hand watering, or use of micro-irrigation or drip irrigation systems (with individual drip emitters using no more than 0.5 gal/hr or 2 L/hr), can be done at any day and time
- F) Run automatic underground system only from **11 PM - to 6:00 AM** and *only* on your watering days
- G) **No watering on Monday** for anyone!
- H) Agricultural properties - natural or landscaped areas must follow the above conservation measures. If you have a district irrigation connection and flow restrictor and have "farm status designation" through BC Assessment Authority, you are exempt from the above restrictions for watering crops only.
- I) New lawns (Seeded lawns or installed turf) can be watered any day at any time using any method for the first 49 days (7 weeks) after planting, but **ratepayers must complete an application form available from KID before planting**. Stage One conservation measures, if in force, will apply after 49 days.

STAGE TWO: (when deemed necessary by Trustees and *in addition to Stage One*)

- A) All properties to the south of Lakehill Road water only on **Tuesday and Saturday**
- B) All properties to the north of Lakehill Road water only on **Wednesday and Sunday**
- D) Automatic underground irrigation systems are included in the above restrictions.
- E) **No watering on Monday, Thursday, or Friday**
- F) No use of water to fill swimming pools, hot tubs, and ponds, and wash vehicles or boats
- G) Agricultural properties as defined in Stage One (H) above, remain exempt from the above restrictions for **watering crops only; natural or landscaped areas must follow the above conservation measures**
- H) Additional watering of new lawns [as outlined above in Stage One (I)] suspended.

STAGE THREE: (when deemed necessary by Trustees)

- A) **NO outside watering permitted**
- B) Depending on severity of drought, exemption for agricultural properties may be subject to review
